EDITORIAL

- Dr. Amar Sontakke

The present newsletter is responsible for the commitment to offer newsworthy, engaging, and thought-provoking information about the College and its people as well as to providing balanced and timely coverage of issues. The purpose of the letters column is to provide an opportunity for members of the extended College family -- primarily alumni, parents, students, faculty, staff, and others with a strong connection to the College -- who wish to engage in free and civil discourse on issues relating to the newsletter and the College. It is not a forum for unrelated issues, self-promotion, or personal attacks. Although no single issue of the newsletter can fully reflect the multiplicity of the College and its family, the editor will make every effort to represent, over the course of time, the great diversity of interest, opinion, and background inherent in the magazine's readership. Photographs that assert to portray an actual event should not be manipulated in any way other than cropping and correction for color, sharpness, brightness and contrast. Photographs used as illustrations of features are subject to greater manipulation, but should be labeled "Photo illustration" if they involve substantial alterations to the image that may not be clear to the reader.

Principal's Message

Dr. Chandra Purkayastha

This is the last issue of the year 2019. The notable development this year is the holding of the elections for the Lok Sabha this year. The students should use this occasion to study the different issues that will be debated and its effect on their lives. The issues in Lok Sabha elections are concerned with macro level issues like jobs, social relationships and security concerns. Students should learn to keep an open mind and not be drawn to unconsidered thinking.

Since jobs are important consideration for the students, what are the jobs which are available and what is the salary paid by different employers. What is the number of job seekers for different employers? The competition for jobs is very high. Why are government jobs so sought after. I hope the students will consider these issues logically and never fail to vote by those who have become eligible.

There is no substitute for hard work. Please continue to make maximum efforts possible now and in the future. Success is assured to those who work for it. I convey my best wishes to all of you in the coming examinations and for the future.
